The Impact of Violence on Women's Health

**"There is one universal truth, applicable to all countries, cultures and communities: violence against women is never acceptable, never excusable, never tolerable."
(Secretary-General Ban Ki-moon)**

Throughout the ages, women face physical and psychological violence regardless of their age, sexual orientation, religion and social or cultural background. As in many other countries, domestic violence is still a taboo subject in Kenya.

Maisha Kenya and Maisha e.V. wish to raise awareness through the conference The Impact of Violence on Women's Health. Exposure to violence affects the health of women, in some cases causing long-lasting physical and mental illnesses. For many women, the resources, the solutions and help may seem beyond their reach, and this is the rationale for this conference.

Everyone who is interested, curious and committed is warmly welcomed. We are looking forward to your participation.

Entrance fee (including food and certificate)

Registration up to 1st of October: 500 Ksh for adults, 250 Ksh for students

From 2nd October on: 1000 Ksh for adults, 500 Ksh for students
